Re: Legislated Accountability Requirements (2011 WI Act 32 & 2015 WI Act 55)

We are pleased to present you with the 2024 Universities of Wisconsin accountability information as outlined in Wisconsin statutes, 2011 Wisconsin Act 32, and 2015 Wisconsin Act 55. The only statewide system of higher education in the nation to issue an annual accountability report since 1993, the Universities of Wisconsin remain committed to accountability and transparency to our governmental leaders and the citizens of Wisconsin.

Act 32 performance measures are presented on the [Accountability Dashboard](#). The Accountability Dashboard is designed for ease of navigation and mobile accessibility. Links to summaries for the Universities of Wisconsin and UW-Madison are available on the website and provided below. Each summary contains additional required accountability information on measures not suitable to the dashboard format.
