UW SYSTEM MATH INITIATIVE Math Steering Committee Meeting

**Tuesday, Sept. 1
3-4 p.m.**

- Transferology Administrator
 - See attached Transferology UW Administrator to find your campus reps
 - Transfer contacts for students <https://www.wisconsin.edu/transfer/contacts-advocates/>
- Monthly MSC calls fall 2020
 - TBD Oct., Nov., and Dec.
- Placement measures
 - How are you going to know if placement worked this year?
 - How will you identify struggling students?
 - How will you support them?
 - How will this fall inform placement for 2021?
- Plans for sustainability of the MI gains and continuous improvement
 - Canvas courses and community of practice
 - Creating a syllabi repository in Canvas
 - Math Chairs annual meeting
 - Data dashboards

Pick two topics below that you want to cover at the MSC Oct. meeting. The other topics will get covered over the remainder of the fall semester.

- MSC Mission Statement
 - Complete statement
 - Share with provosts
- MSC Gateway LOs and DPI standards statement
 - Standards scheduled to be updated spring 2021
- Another suggestion to explore course numbers for developmental and co-req courses
 - Like MATC use a separate curricular area matgen for the lowest level math courses, such as MathPrep or PreMath or MatFun (for "Math Fundamentals" the non-college math portion of the placement test). Instead of Math 075, 098 use MatFun 175, 198
 - This would then help with alignment of WTCS transfer of developmental/co-req courses
 - The courses in that curriculum area would count towards graduation but not GER requirements
