

University of Wisconsin System Kickoff Webinar

April 17, 2018

2:00-3:00pm

Goal

Develop a shared understanding of the mathematics pathways cross-disciplinary alignment process

Objectives

Provide an overview of the multidisciplinary alignment process for May workshop

Obtain feedback from institutions in preparation for May workshop

Agenda

- 2:00-2:05 Kick off (Jim Henderson)
- Reminder of timeline and objectives.
- 2:05-2:15 High-level overview of math pathways (Amy Getz)
- DCMP defined
 - National examples and success data
- 2:15-2:20 Preview May workshop – goals and process (Martha Ellis, Frank Savina)
- Interactive opportunity to collaborate with partner disciplines to align default math course requirements to programs of study
- 2:20-2:30 Data overview (Jeremy Martin)
- Overview of using the data to track scale and success
 - Why requesting this data and how it informs the teams at the workshop
- 2:30-2:50 Team Breakout Discussion
- What do you and your team want at the workshop?
 - What barriers and opportunities do you anticipate in the alignment process?
 - What is unique to your role in this work?
- 2:50-3:00 Wrap-up
- DC staff will take notes during the breakout discussion and share summary of one or two findings
 - Reminder of next steps (Amy)
 - Final Remarks (Alice Pulvermacher)
